

Peer Evaluation for CA6002 Group Assignment

Dear Students,

Your CA6002 peer review will open **31 Aug 2026 @ 12 noon** for you to evaluate your team members' contributions and efforts. We are using an inhouse developed platform "TeamRate". The TeamRate Student Guide is attached.

The link to your TeamRate peer evaluation is: <https://10.96.188.179> (<https://10.96.188.179/>)

This platform requires users to access it using NTU WiFi (on campus) or NTU VPN (off campus), as it is hosted within the NTU internal network. You may sign in using your NTU Microsoft account. Because the application is hosted on an internal NTU server and uses an internal IP address, you may see a browser message such as "*Your connection isn't private*" or an advanced security warning. This is expected behaviour and does not indicate a problem with the system. If you encounter this message, please:

1. Click Advanced
2. Select Continue to the site

This is safe to proceed only when you are connected via NTU WiFi or NTU VPN.

If you continue to face access issues after following these steps, please let me know. The attached PDF gives a detailed information about the platform and login.

Key points:

- All team members must submit their evaluations as there is penalty for no submission.
- Please check your team members' names are correct before evaluating them.
- Please enter your truthful evaluations and constructive remarks.

Please note that the end date for peer evaluation is **5th September 2026 (Saturday), 12:00 noon**. After that you are no longer able to do peer review and will get a zero mark for this component.

A/P Goh Wooi Boon (27 Aug 2026)
